Work History

[A Place for Mom](#) WordPress Developer Contractor 2018 – Present
Seattle, WA

- Upgrade WordPress, PHP, and jQuery code to enhance security.
- Extend custom plugins and PHP code to improve caching and speed.

Microsoft WordPress Developer Contractor through **[Mindtree](#)** 2018
Redmond, WA

- Migrated existing WordPress blogs to a new web host.
- Developed custom code for WordPress plugins and a new theme.

Microsoft Web Producer Contractor through **[HCL America](#)** 2016 – 2017
Redmond, WA

- Updated pages on Microsoft Windows (windows.com) and Microsoft Office (products.office.com) websites using HTML, CSS, JavaScript, and jQuery.
- Collaborated with designers, developers, and project managers to meet stakeholder goals. Ensured that each page met accessibility and localization standards for people with disabilities and non-English speakers.

Work History (cont.)

WordPress Developer on [Vitamin T](#) contract at [Metiza Magazine](#) 2016
Seattle, WA

Developed WordPress Site for [Metiza Magazine](#), an Online Magazine for Teen Girls

- Used the [Advanced Custom Fields plugin](#) and [PHP regular expressions](#) so the client could log into the WordPress admin and paste in [Google AdSense](#) code themselves that was optimized for mobile devices.
- For tablet and mobile devices only, on the [homepage](#) used JavaScript and jQuery to make a popup window appear with steps to add a shortcut icon to the device home screen, along with a link inside the popup to close it and not show it again.

WordPress Developer on [Vitamin T](#) contract at [Copacino+Fujikado](#) 2015
Seattle, WA

Developed WordPress Site for [StrongAgainstCancer.org](#), a Pediatric Cancer Fundraising Site for [Seattle Children's Hospital](#)

- Took Adobe Illustrator, Photoshop, and InDesign files created by a designer, to develop a WordPress site with [custom post types](#) coded by hand and displayed on all pages.
- Added features using JavaScript and jQuery including an overlay main menu for mobile devices, a slideshow on the homepage, and fly-out boxes on the Get Involved page.

Production Artist/Web Developer with [Sesame Communications](#) 2009 – 2014
Seattle, WA

**Note: I was a full-time employee with Sesame Communications, a company that builds, hosts, and offers many online services for orthodontists and dentists. Below is one of the hundreds of websites I worked on.*

Developed WordPress Blog, Branded Social Networks, and Implemented SEO for [LisenbyOrthodontics.com](#)

- Developed WordPress blog from scratch including setting up MySQL database and ensuring that its theme matched the rest of the non-WordPress, PHP website.
- Branded and configured social networks including Facebook and YouTube. Also added Google Analytics, Google Webmaster Tools, and meta tag optimization.

Freelance Projects

[See MPMinistry.com](#) 2015

- For MP Ministry, created the logo and website design proof using Adobe Photoshop and Illustrator.
- Developed website using [custom post types](#) and [Sass](#), along with [BrowserStack.com](#) to test on various devices like an iPhone 4, tablets, and Internet Explorer versions.

Education

-
- [Coding Dojo Onsite Bootcamp](#), Bellevue, WA 2015
Full stack programming bootcamp including LAMP (PHP, MySQL, [CodeIgniter PHP framework](#)), MEAN (MongoDB, ExpressJS, AngularJS, Node.js), and Ruby on Rails.
 - Web Design A.A. Program, Seattle, WA 2007 – 2009
Seattle Central College
 - Technical Writing Certificate, Bellevue, WA 2005 – 2006
Bellevue College
 - English B.A., Bellingham, WA 1998 – 2002
Western Washington University
